Recognition of Prior Learning

What is it?

RPL recognises what you have already learned from other courses, from life experience, from work experience and from any training provided at work, and measures this against the course you are doing or want to do. If what you have learned at work or elsewhere is relevant to BT courses, you may not have to do those parts of the course again.

Why apply for RPL?

It is important to apply for RPL if you think you already have experience that might be relevant to your course. The advantages of applying for RPL are:

- You can determine whether your experience is similar to that required by the course.
- If you have already achieved some of the learning outcomes of the course, you might not have to do those sections of the course again. This could mean finishing your course much earlier, or not having such a heavy course load.
- RPL means that you only need to study subjects which are new and challenging. You do not have to study in areas where you have already gained skills and knowledge.
- RPL recognises that you are entering a course with already acquired skills; that you are no longer a beginner in your field.

RPL is most relevant to those who have previously done Breathwork trainings that were not endorsed by the Australian Breathwork Association.

How it works - What happens?

If you decide to apply for RPL you will be asked to enrol and pay an application fee. You will be asked to give details of your relevant experience, skills and knowledge.

An RPL assessor will help you identify what evidence you need to provide for a successful application. When you feel you have gathered together sufficient evidence, the RPL assessor will arrange a formal interview with you.

At the interview, the assessor will examine your documented evidence and ask you questions to determine whether you are eligible for recognition of prior learning. After the interview, you will be notified of the RPL decision. If your application is successful, you will not be required to do certain parts of the course program.

If your application is unsuccessful, you can appeal against the decision if you believe it was unfair.

If you think you might be eligible for RPL, you should:

1. Obtain an enrolment form from the BT office.
2. Discuss your situation with the course trainer and/or assessor.
